Big Picture First

Disruptive Technology

Mobile Technology

kills markets
(mass extinction, actually)

5 ways to build mobile

- **Native apps** (code compiled to run natively on iPhones, Androids, etc.)
- **Web apps** (HTML5 and JavaScript-based apps running on mobile browsers)
- **Mobile/desktop domain switching** (parallel websites)
- **Responsive design**
- **RESS: Responsive Design + Server-side Components**

What will make Drupal mobilicious?

**HTML5
Initiative**

**WSCII
Initiative**

The **Drupal 8 Mobile Initiative** is a concerted effort to make Drupal 8 a first-class mobile platform. This is the official place to discuss those challenges and make plans! Want to help?

1. [Read the introductory blog post by John Albin Wilkins](#), the D8 Mobile Initiative lead.
2. Checkout [Shyamala's Blog on the mobile initiative](#) to find out what we've accomplished as of March 2013.
3. Read [the Mobile initiative page on drupal.org](#) to find most important places to help. *We need documenters, reviewers, thinkers and coders.*

Sprint: Friday

Sprint with the community on Friday.

We have tasks for every skill set.

Mentors are available for new contributors.

An optional Friday morning workshop will help you set up community tools.
